

John Mark Agustin E. Acido

FULL-STACK PHP / LARAVEL DEVELOPER

Gingoog City, Philippines | +63 919 806 6567 | 94jmaea94@gmail.com
jmaeacido.github.io | github.com/jmaeacido

PROFILE

Self-taught full-stack developer building business systems with PHP, Laravel, MySQL, JavaScript, React, and TypeScript. Experience spans REST endpoints, third-party AI integrations, secure authentication, data-intensive workflows, real-time notifications, scheduled processes, reporting, and Linux/Nginx deployment. Comfortable taking an operational goal through research, implementation, testing, documentation, and production support.

CORE TECHNOLOGIES

BACKEND	FRONTEND	INTEGRATION & DELIVERY
PHP 8.3, Laravel 13, REST APIs, Eloquent ORM, migrations, MySQL/MariaDB	React 18, TypeScript, Inertia.js, JavaScript, Tailwind CSS, Blade	Groq, Ollama, SSE, Web Push, Socket.IO, Git, Linux, Nginx, PHPUnit

SELECTED FULL-STACK PROJECTS

Resumo - AI Resume Intelligence Platform

LARAVEL 13 | REACT 18 | TYPESCRIPT | INERTIA.JS | MYSQL | GROQ / OLLAMA

- Built an ATS and job-match platform with keyword-gap analysis, report history, downloadable PDF feedback, and AI-generated resume drafts.
- Integrated Groq with an Ollama fallback; structured backend logic into controllers and services and exposed analysis and assistant endpoints.
- Implemented PDF, DOCX, and TXT extraction, email verification, CSRF protection, rate limiting, ownership controls, and secure guest tokens.

KAILA - Local Services Marketplace Rebuild

LARAVEL 13 | PHP 8.3 | ELOQUENT | SSE | WEB PUSH | PWA | VITE

- Rebuilt workflows for service requests, provider matching, offers, job states, messaging, payments, disputes, ratings, and staff roles.
- Implemented migrations, Eloquent models, validation, protected routes, authentication, responsive interfaces, and role-dependent rules.
- Delivered live notifications through SSE, browser push through VAPID/Web Push, and a scheduled command for automatic confirmation.

ADDITIONAL SYSTEMS EXPERIENCE

KODUS - Operations, Monitoring & Reporting System

PHP | MYSQL | JAVASCRIPT | SOCKET.IO | LINUX | NGINX

- Developed and maintained workflows connecting beneficiary records, validation, implementation monitoring, payouts, funds, documents, reporting, notifications, and audit logs.
- Implemented and supported 2FA, role- and area-based access, background imports, exports, deduplication, crossmatching, password controls, and account administration.
- Supported messaging, calendars, notifications, optional Socket.IO integration, and Linux/Nginx/PHP-FPM deployment and troubleshooting.

ZYNQ - Point-of-Sale & Business Management System

LARAVEL | PHP | MYSQL | BLADE | JAVASCRIPT | ROLE-BASED ACCESS

- Built and supported checkout, cash sessions, offline synchronization, inventory, stock movements, reports, invoicing, and onboarding workflows.
- Worked across tenant, branch, terminal, compliance, permission, and audit-trail features; investigated defects and improved operational interfaces.

PROFESSIONAL EXPERIENCE

Project Development Officer I

DEPARTMENT OF SOCIAL WELFARE AND DEVELOPMENT (DSWD) | AUGUST 2022 - PRESENT

- Maintain digital monitoring, document-tracking, and reporting workflows supporting program operations across multiple offices.
- Investigate system and data issues, validate information, improve recurring workflows, and prepare technical references for users.
- Coordinate technical and operational requirements while maintaining confidentiality, traceability, and accurate documentation.

BIGBLUEBUTTON READINESS

Prepared to learn BigBlueButton's create/join/end APIs, checksums, callbacks, meeting events, participant roles, and deployment model. The relevant foundation is already present: Laravel service design, REST integration, real-time delivery, secure authorization, relational modeling, scheduled workflows, Linux operations, and cross-system debugging.

EDUCATION

Bachelor of Science in Business Administration

Major in Marketing Management | Gingoog City Colleges, Inc. | 2013-2017

Self-taught in information technology and full-stack web development.
