## PROFESSIONAL SUMMARY

Web Developer and Technical Support Specialist with hands-on experience in PHP/MySQL development, Linux deployment, workflow automation, technical documentation, reporting systems, and secure web platform development. Experienced in building and maintaining systems with authentication, audit logging, real-time notifications, dashboards, and monitoring tools.

Skilled in PHP, MySQL, JavaScript, Linux, Nginx, Git, Socket.IO, UI/UX improvements, troubleshooting, deployment support, and workflow optimization. Focused on delivering reliable, scalable, and user-focused technical solutions.

---

## TECHNICAL SKILLS

### Development

- PHP
- MySQL
- JavaScript
- HTML5
- CSS3
- jQuery
- Socket.IO
- REST/API Concepts

### Systems & Deployment

- Linux
- Ubuntu Server
- Nginx
- XAMPP
- Laragon
- PM2
- Git & GitHub
- GitLab

## Tools & Platforms

- VS Code
- AdminLTE
- DataTables
- Photoshop
- Microsoft Office
- Google Workspace

## Technical Support & Operations

- System Troubleshooting
  - Deployment Assistance
  - Workflow Automation
  - Technical Documentation
  - Reporting Systems
  - UI/UX Improvements
  - Data Validation & Monitoring
  - Security & Audit Logging
- 

# TECHNICAL PROJECTS

## KODUS — Web-Based Document & Reporting System

**PHP, MySQL, JavaScript, Linux, Nginx, Socket.IO**

- Developed and maintained a web-based document updating and reporting system used for workflow management, monitoring, and reporting.
- Implemented secure authentication systems including two-factor authentication (2FA), session handling, and audit logging.
- Built reporting dashboards, validation tools, notification systems, and workflow automation modules.
- Integrated real-time updates and messaging functionality using Socket.IO and PM2.
- Managed Linux deployment, Nginx configuration, troubleshooting, and system maintenance.
- Enhanced UI/UX using AdminLTE, responsive layouts, and JavaScript-based interactions.
- Assisted in technical documentation, deployment workflows, and system optimization.
- Worked with Git/GitLab version control for collaborative development and deployment.

## ZYNQ POS — Point-of-Sale & Business Management System

**Laravel, PHP, MySQL, JavaScript**

- Contributed to the development and enhancement of a modern POS and business management platform.

- Worked on modules related to inventory, sales workflows, reporting, taxation, and operational monitoring.
  - Assisted in implementing secure and scalable backend workflows.
  - Improved UI consistency, workflow efficiency, and reporting processes.
  - Participated in debugging, troubleshooting, testing, and deployment-related tasks.
- 

## PROFESSIONAL EXPERIENCE

### Project Development Officer I

**Department of Social Welfare and Development (DSWD) — Butuan City, Agusan del Norte**

**August 2022 – Present**

#### Technical Systems, Reporting & Support

- Maintained online monitoring systems and digital reporting workflows.
  - Assisted in workflow optimization, technical support, and troubleshooting.
  - Managed reporting systems, document tracking, and digital monitoring processes.
  - Supported workflow improvements through systemized reporting and documentation procedures.
  - Coordinated technical and operational requirements across multiple offices.
  - Assisted in maintaining organized digital systems and reporting structures.
- 

## EDUCATION

### Bachelor of Science in Marketing Management

**Gingoog City Colleges, Inc.**

**2013 – 2017**

---

## ADDITIONAL INFORMATION

- Available for remote technical support and web development work.
- Experienced in collaborative development environments using Git and GitLab.
- Familiar with Linux server management, deployment workflows, and troubleshooting.
- Strong background in technical documentation, reporting systems, and workflow optimization.
